Órama London believes that women can accelerate progress and facilitate transformation in their own social environments. A woman in an office can seal a deal to secure the company an important strategic partner. A woman at home can mold her child into a beautiful compassionate human being. A woman with her own small business, doing what she loves, can generate enough income to enable her child to go to school. A woman with a vision is a force of change.

10% of each Órama bracelet's profits will be donated to Opportunity International. Get yours too by emailing oramalondon@gmail.com

I am absolutely in love with my new [@oramajewellery](#) bracelet which stands for Drive. I chose this affirmation for me because it describes and emphasizes my passion and zest for action in my fashion career very well. I thought would be very suitable for my blogging career.

Inspired from the greek ὄραμα (horama) meaning vision, Órama is an affordable luxury jewellery brand with ethos. Delicately crafted Órama bracelets connect women from across the world who share a vision. This is achieved through Órama's micro-financing partner Opportunity International and the "Women and Girls Appeal" initiative, which gives women entrepreneurs in struggling communities the chance to create businesses with the help of micro-loans.

Through eight distinctive affirmations in different colors (Strength, Independence, Vision, Positivity, Radiance, Drive, Growth and Sisterhood), the Órama bracelet empowers both the woman who wears the bracelet as well as the woman who receives a helping hand. Which bracelet meaning does represent you best?
